.....  
(Consent Applicant)

in relation to:.....at: .....  
(Description of application)

.....  
(Address)

LOT:..... DP..... SO .....

### Certification of establishment of erosion and sediment control measures

- I am the Erosion and Sediment Control Site Manager nominated in the **Erosion and Sediment Control Plan** ("Plan") previously submitted in respect of the above consent(s).
- I certify that all the necessary measures proposed in the plan approved by the council have been implemented and the established works will control erosion and sediment discharge to other properties and protect clean water flows to the stormwater disposal system.
- The established measures will be maintained during the construction period until all construction activities are completed.
- I will regularly inspect the site in accordance with the Plan and after any significant rainfall event to ensure continued operation.
- I have authority to direct and require that the necessary resources be applied to the maintenance works and any essential revisions to them.
- I will maintain all erosion and sediment control on site in accordance with the approved plan.
